

Tee's House Website Management Guide

For: Tierra Smith and the Tee's House team **Studio URL:** teeshouse-inc.sanity.studio **Last updated:** April 2026

Getting Started

Logging In

1. Go to **teeshouse-inc.sanity.studio**
2. Sign in with your GitHub or Google account
3. You'll see the content sidebar on the left

How It Works

Think of Sanity Studio like WordPress, but faster:

- The **left sidebar** is your menu of content types (pages, news, events, etc.)
- Click any item to see all entries, or click + **Create** to add a new one
- Make your edits, then click the green **Publish** button
- Changes go live on the website within about 60 seconds

Key Differences from WordPress

WordPress	Sanity Studio
Posts & Pages	Each content type has its own section
Media Library	Upload images/files directly inside each entry
Appearance > Menus	Site Settings > Page Labels (renames nav links)
Settings > General	Site Settings (top of sidebar)
Plugins	Not needed - everything is built in

The Sidebar (Your Content Menu)

Here's every section in the sidebar and what it controls on the website:

Sidebar Section	What It Controls
Site Settings	Global stuff: hero text, contact info, social links, donate page, about page, home page sections
Pages	Custom standalone pages (like a generic WordPress page)
Community Impact	Your programs/initiatives shown on the Community Impact page
Products & Services	Kits and services (shown on the Products & Services page)
Events	Upcoming, ongoing, and past events
News and Updates	Blog-style news articles
Photo Gallery	Photo albums with multiple images

Team Members	Staff, board, volunteers shown on the About page
Testimonials	Quotes from community members, parents, partners
Partners and Sponsors	Partner logos and info shown on the Partners page
FAQs	Questions and answers shown on the FAQ page
Annual Reports	Yearly reports with PDF uploads for the Transparency page
Documents & Downloads	Upload any PDF/flyer and link it on the site
Volunteer Roles	Role definitions (used internally)
Impact Stats	The numbers shown on the home page and about page (e.g. "150+ Youth Served")

Common Tasks

Updating Contact Info (Phone, Email, Address)

1. Click **Site Settings**
2. Scroll to **Phone Number**, **Email Address**, and **Address**
3. Edit the values
4. Click **Publish**

This updates the contact info everywhere on the site: footer, contact page, about page, home page, and structured data for Google.

Changing the Home Page

Hero Section (Big Banner at Top)

1. Click **Site Settings**
2. Edit **Hero Headline** and **Hero Subtext**
3. Optional: paste a video URL in **Hero Background Video URL** for a background video
4. Click **Publish**

Hero Image (when no video is set)

1. Click **Site Settings** > expand **Home page sections**
2. Upload a new **Hero Background Image**
3. Click **Publish**

The Inspirational Band (Parallax Section)

1. Click **Site Settings** > expand **Home page sections**
2. Edit **Parallax Heading** and **Parallax Text**
3. Optionally upload a new **Parallax Background Image**
4. Click **Publish**

The "Ready to Make a Difference?" Banner

1. Click **Site Settings** > expand **Home page sections**
2. Edit **CTA Banner Heading** and **CTA Banner Text**
3. Click **Publish**

Mission Tagline

1. Click **Site Settings**
2. Edit **Mission Tagline** (the italic quote shown below the hero)
3. Click **Publish**

Impact Stats (the numbers like "150+ Youth Served")

1. Click **Impact Stats** in the sidebar
2. Edit existing stats or create new ones
3. Each stat has a **Label** (e.g. "Youth Served") and a **Value** (e.g. "150+")
4. Use the **Display Order** number to control the order (lower = first)
5. Click **Publish**

Before & After Slider

1. Click **Site Settings** > find **Before / After Slider**
 2. Upload **Before Image** and **After Image**
 3. Optionally change labels and add a caption
 4. Click **Publish**
-

Managing the Donate Page

1. Click **Site Settings** > expand **Donate page**

Fundraising Thermometer

- **Fundraising Goal (\$)** - Your target (e.g. 25000)
- **Amount Raised (\$)** - How much you've raised so far
- **Number of Donors** - Donor count shown on the thermometer
- **Campaign Name** - e.g. "2026 STEAM Future Leaders Fund"
- **Campaign Deadline** - e.g. "August 31, 2026"

Update the "Amount Raised" and "Number of Donors" whenever you receive new donations.

Giving Options (PayPal, Venmo, etc.)

- Click the **Giving Options** array to add/remove/reorder payment methods
- Each option has: **Title**, **Description**, **Button Label**, **URL**, and **Opens in new tab?**
- To add a new payment method, click **Add item**

Monthly Giving Impact Tiers

- These show donors what their monthly gift does
 - Each tier has an **Amount** (e.g. "\$10/mo") and **Impact Description** (e.g. "provides snacks for 2 students")
-

Editing the About Page

1. Click **Site Settings** > expand **About page content**
- **Mission Heading** - The big heading next to the photo (e.g. "Cultivating Growth in Every Child")
 - **Mission Text** - Rich text editor for the mission paragraphs. You can use bold, italic, links, and multiple paragraphs here. This works just like a WordPress text editor.
 - **Mission Photo** - The image shown next to the mission text
 - **Core Values** - Add/edit/remove values. Each has a **name** and **description**.
 - **Contact Section Quote** - The italic quote at the bottom of the page
 - **Contact Section Photo** - The image in the contact section

Team Members

1. Click **Team Members** in the sidebar
 2. Edit existing members or click **+ Create** to add a new one
 3. Fill in: **Name**, **Role/Title**, **Bio** (rich text), **Photo**
 4. Optional: **Email**, **LinkedIn URL**
 5. Set **Category** (Staff, Board, Volunteer, or Advisor)
 6. Set **Active** to show/hide without deleting
 7. Use **Display Order** to control position (lower = first)
-

Adding News Articles

1. Click **News and Updates > + Create**
 2. Fill in:
 - **Title** - Article headline
 - **Slug** - Auto-generated from title (this becomes the URL, e.g. `/news/my-article`)
 - **Published At** - Date picker
 - **Excerpt** - Short summary shown on the news listing (keep under 160 characters)
 - **Body** - Full article content with rich text, images, links
 - **Featured Image** - Main image shown at the top of the article and on cards
 - **Tags** - Add tags like "agriculture", "events", "community"
 3. Toggle **Featured** to highlight it on the home page
 4. Click **Publish**
-

Managing Events

1. Click **Events > + Create**
 2. Fill in:
 - **Title** and **Slug**
 - **Date and Time / End Date**
 - **Location** (or toggle **Virtual Event** and add a link)
 - **Description** - Rich text
 - **Image**
 - **Registration Link** - External URL for sign-ups
 - **Free Event?** toggle, or enter a **Cost**
 - **Status**: Upcoming, Ongoing, Past, or Cancelled
 - **Tags**
 3. Toggle **Featured** to show on the home page
 4. Click **Publish**
-

Managing the Photo Gallery

1. Click **Photo Gallery > + Create**
2. Fill in:
 - **Album Title** and **Date**
 - **Cover Image** - The main photo shown on the gallery page
 - **Description**
 - **Photos** - Click **Add item** to upload multiple photos, each with an optional caption
3. Toggle **Featured** to highlight on the gallery page
4. Click **Publish**

Tip: You can drag and drop to reorder photos within an album.

Adding Community Impact Initiatives

1. Click **Community Impact > + Create**
 2. Fill in:
 - **Initiative Title** and **Slug**
 - **Status**: Current, Past, or Upcoming
 - **Year**
 - **Category**: Agriculture, Arts, STEAM, Nutrition, Wellness, or Other
 - **Description** - Rich text
 - **Initiative Image** (include alt text for accessibility)
 3. Toggle **Featured on Homepage** to show on the home page
 4. Click **Publish**
-

Adding Products & Services (Kits)

While the 3 service tiers and 4 kits are built into the page design, you can add more items:

1. Click **Products & Services > + Create**
 2. Fill in:
 - **Title** and **Description**
 - **Category**: Kit or Service
 - **Image** (optional, with alt text)
 - **Price** (optional, e.g. "\$15", "Starting at \$25", "Free")
 3. Click **Publish**
-

Uploading PDFs and Flyers

This is how you share documents (like the Kit Showcase or services flyer) on the website:

1. Click **Documents & Downloads > + Create**
2. Fill in:
 - **Title** (e.g. "Kit Showcase Flyer")
 - **Description** (optional, shown under the title)
 - **PDF / Document** - Click to upload your file
 - **Thumbnail** - Upload a preview image (like a screenshot of the first page)
 - **Category**: Flyer, Report, Form, Menu/Price List, or Other
3. Toggle where it appears:
 - **Show on Products & Services page?** - for kits/services flyers
 - **Show on Transparency page?** - for financial reports, audits
4. Click **Publish**

The document gets its own download link automatically. If you need the direct URL to share (like in an email), click the uploaded file and copy the URL.

Updating Partners

1. Click **Partners and Sponsors > + Create**
2. Fill in:
 - **Organization Name**
 - **Logo** (upload their logo)
 - **Website URL**

- **Description**
- **Tier:** Platinum, Gold, Silver, or Community

3. Click **Publish**

Partners are grouped by tier on the Partners page.

Managing FAQs

1. Click **FAQs > + Create**
 2. Fill in:
 - **Question** - The question visitors see
 - **Answer** - Rich text answer (can include links, bold, etc.)
 - **Category:** Volunteer, Donation, Community Impact, or General
 - **Display Order** - Lower numbers appear first
 3. Toggle **Active** on/off to show/hide without deleting
 4. Click **Publish**
-

Uploading Annual Reports

1. Click **Annual Reports > + Create**
 2. Fill in:
 - **Year** (e.g. 2025)
 - **Report Title** (e.g. "2025 Annual Impact Report")
 - **Summary** - Brief text description
 - **File** - Upload the PDF
 - **Cover Image** - Upload a cover/thumbnail image
 - **Key Highlights** - Add bullet-point highlights
 3. Toggle **Published** to make it live
 4. Click **Publish**
-

Renaming Pages Site-Wide

Want to rename "Community Impact" to something else, or change what "About" says in the nav? You can do this without touching code:

1. Click **Site Settings**
2. Expand **Community Impact page labels** or **Page labels (About / Events / News / Gallery)**
3. Change the **Nav / footer link label** to rename it everywhere (navigation, footer, breadcrumbs)
4. Change other fields to update the hero title, SEO title, etc.
5. Click **Publish**

Example: To rename "News" to "Blog":

- Set Nav label to "Blog"
 - Set Page title to "Our Blog"
 - Set Browser tab title to "Blog | Tee's House Inc."
-

Updating Social Media Links

1. Click **Site Settings**
2. Scroll to **Facebook URL, Instagram URL, LinkedIn URL**
3. Paste the full URL (e.g. `https://www.facebook.com/teeshouseinc`)

4. Leave blank to hide that icon from the footer
5. Click **Publish**

Tips & Tricks

Images

- **Hotspot cropping:** When uploading images, click the image to set a hotspot (the focal point). This ensures the important part of the photo stays visible even when it's cropped for different screen sizes.
- **Alt text:** Always fill in alt text when available. This helps with accessibility and Google SEO.
- **Size:** Sanity automatically optimizes images, so you don't need to resize before uploading. Higher resolution is better.

Rich Text Fields

Any field labeled "rich text" or that shows a formatting toolbar works like a mini word processor:

- **Bold** and *Italic* work as expected
- You can add **links** by highlighting text and clicking the link icon
- You can add **images** inline within the text
- Use headings (H2, H3) to structure longer content

Publishing vs. Drafts

- **Draft** (yellow dot): Your changes are saved but NOT live on the website
- **Published** (green dot): Live and visible to everyone
- You can make changes to a published document - it stays live with the old content until you click Publish again

Deleting vs. Hiding

- Most content types have an **Active** or **Published** toggle
- Use this to hide content instead of deleting it - you can always bring it back later
- Only delete content you're sure you'll never need again

Display Order

- Many sections use a **Display Order** number
- Lower numbers appear first (1, 2, 3...)
- If you leave it at 0 or the default, items appear in the order they were created

What Goes Where (Quick Reference)

I want to change...	Go to...
Phone / email / address	Site Settings
Home page hero text	Site Settings > Hero Headline / Subtext
Home page banner image	Site Settings > Home page sections > Hero Image
Donate thermometer numbers	Site Settings > Donate page
About page mission text	Site Settings > About page content
Navigation link names	Site Settings > Page labels

Social media links	Site Settings > Facebook/Instagram/LinkedIn URL
Team members	Team Members
News articles	News and Updates
Events	Events
Programs/initiatives	Community Impact
FAQ answers	FAQs
Partner logos	Partners and Sponsors
Photo albums	Photo Gallery
Impact numbers	Impact Stats
Upload a PDF/flyer	Documents & Downloads
Annual reports	Annual Reports
Kits (if adding to Sanity)	Products & Services
